

## 1 Register

Log in on **u/skillity**

through **facebook** or Email

and set up your profile by indicating all the necessary information that your participants would like to know, like your age, your education background and so on.

## 2 Set up your Skillity

Determine the category and topic of your skillity.

Set up the skillity's profile by including a description of the thing you are conducting, a picture, the time and date when the skillity is taking place, the number of participants and if its not free then state the price.

Then determine the location. If you don't have one then you can get one from our partner XX.

## 3 Share your Skillity

Spend a great time with the people that want to learn your skill.

Get the money transferred to you within 24h.

The only thing left is to get feedback from the people that participated in your skillity and connect with the u/skillity community for further skill exchange.
